

## **SABO & 3V Sigma USA sign an Exclusive Representation Partnership for SABO Personal Care Products**

Georgetown, South Carolina USA and Levate, Bergamo Italy – 3V Sigma USA, a North America leading producer of advanced specialty chemicals for Personal Care formulations, has finalized a partnership with SABO SpA for the exclusive representation of their Personal Care product line in USA, Canada and Mexico.

The new Partnership agreement will allow SABO SpA, based in Levate, Bergamo, Italy, to expand its Personal Care market presence with 3V SIGMA USA, based in Georgetown, SC, USA, a well-established organization in North America, thanks to a synergistic collaboration.

“We are confident that we will build with SABO a long-term relationship together with our customers by developing formulations matching market trends and providing tailor made solutions and performance. We are very excited and looking forward to our partnership with SABO for many years to come,” said Jeffrey Stevens, Senior Vice President Marketing & Sales for 3V SIGMA USA.

“We are very pleased to announce the partnership between our companies with real production history and technical know-how. Besides this great opportunity for SABO SpA to strengthen the presence in the USA, Canada and Mexico, we are sharing the same values, and we have the common understanding of the Personal Care Industry / Products, which we are sure will help us to be successful together.” said Ori Callot, Global Head of Personal Care BU for SABO SpA.

**3V Sigma USA** is a North America leading producer of advanced specialty chemicals that range from **synthetic polymers** to **organic chemistry molecules**. Through a deep knowledge of chemistry, chemical processes and final market applications we develop and produce chemicals that deliver the high performances customers need. Continuous Innovation, sustained Quality and outstanding Customer Support have been the key ingredients of our success for the last 60 years.
